Projects

- Travelling - Angular Web Development

  May 2020 - July 2020
  https://prajwal-pandit.github.io/

  Technology Used :

  - **Angular 9**
  - **NodeJs**
  - **Bootstrap**
  - **Mongo db**

  To book the flight and tickets, this website is based on angular web development. It is the demo of the web for booking flights and hotels. I have integrated the web with sign-in and sign-up authentication and the user details are displayed in the front-end.
  Username: demo1 Password: demo

- Smart Generator - IOT

  Jun 2019 - Aug 2019

  The IoT course is provided by our college as an extra elective course. During this course, we have conducted a “Smart Generator” project using Thingworx and different sensors.

- GND IOT solutions - Web Development

  Feb 2019 - May 2019
  https://demoprojectgndsolutions.firebaseapp.com/index.html

  Technology Used :

  - **HTML**
  - **Bootstrap**
  - **CSS**
  - **Javascript**
  - **JQuery**

  This project is based on a responsive web app for the IoT company named GND IoT Solutions. This project took part in developing an interactive web app in which it contains the IoT services provided by this company.

- Peyond Web - Web Development

  Apr 2019 - Oct 2019
  https://peyondiotsolutions-7dff2.firebaseapp.com/

  Technology Used :

  - **HTML**
  - **Bootstrap**
  - **CSS**
  - **Javascript**

  In this project, I have created an interactive web app in which there are many resources for different IoT services. This project was not for official use, it was made with my personal interest.

Trainings and Workshops

- Dev-Ops

  Nitte Meenakshi Institute of Technology (Bangalore)
  Jan 2020 - Jan 2020

  Dev-ops workshop was part-over by Nitte Meenakshi Institute Of Technology in which we gain knowledge about what actually dev-ops is and managing the projects. They conducted the hands-on Jenkin's platform and Github.

- Unity

  Nitte Meenakshi Institute of Technology (Bangalore)
  Jan 2020 - Jan 2020

  This workshop was organized by Nitte Meenakshi Institute Of Technology which gave me good insights into graphics and games and how things work in 3D.
